

Secret Block Writing

- 1) Lightly mark the squares that make your word written in block capitals.
- 2) Using squared paper colour the squares that are between the letters.
- 3) Leave the top of the letters and the bottom un-coloured.
- 4) Trim the paper to one square all around your word.

You could now try to make a 3D version, cut strips of card from a cereal box or a cardboard box and use these to lay your letters out on a larger piece of card or even a piece of wood.

Remember when you have made yours, don't be shy share a picture on the 'Children and Families Chat' Facebook page.
